Defendants.

Plaintiff Rover Pipeline LLC (“Plaintiff” or “Rover”), by and through counsel, files this Verified Complaint for Condemnation (“Verified Complaint”) pursuant to the Natural Gas Act (“NGA”), 15 U.S.C. § 717f(h) and Fed. R. Civ. P. 71.1. Rover seeks an order of condemnation for the permanent pipeline, temporary work space, surface site, permanent and temporary road access and other rights-of-way and easements (the “Easements”), which are described in paragraphs 29-49 of this Complaint and identified, described and depicted on **Exhibit A** attached hereto and incorporated herein, and for such other legal and equitable relief as may be appropriate, specifically including injunctive relief allowing Rover to enter the property to clear the Easements and commence and complete

construction and restoration efforts while the proper amount of compensation for the taking is resolved in this action.

Jurisdiction, Venue, and Authority for Taking

1. Rover is the holder of a Certificate of Public Convenience and Necessity (“Certificate”) issued on February 2, 2017, by the Federal Energy Regulatory Commission (“FERC”), under Docket Nos. CP15-93-000, CP15-93-001, CP15-94-000 and CP15-96-000, 158 FERC ¶ 61,109, a true and correct copy of which is attached hereto as **Exhibit B** and incorporated herein, to construct, operate, and maintain an interstate natural gas pipeline system consisting of approximately 713 miles of new 24” to 42” diameter natural gas pipelines and appurtenant facilities (510.7 linear miles of pipeline easement and 713 miles of total pipe therein) that include approximately 10 new compressor stations, 17 new meter stations, 77 mainline valves, and 11 pig launcher and receiver facilities, with a total system capacity of up to 3.25 billion cubic feet per day (Bcf/d) of natural gas supply from the Marcellus and Utica Shale producers and traversing through Doddridge, Hancock, Marshal, Tyler and Wetzel Counties in West Virginia; Ashland, Belmont, Carroll, Crawford, Defiance, Fulton, Hancock, Harrison, Henry, Jefferson, Monroe, Noble, Richland, Seneca, Stark, Tuscarawas, Wayne, and Wood Counties in Ohio; Washington County in Pennsylvania and Lenawee, Washtenaw and Livingston Counties in Michigan, through interconnections with existing pipeline infrastructure in Ohio and Michigan to supply interstate natural gas pipelines and storage facilities as well as markets in the Gulf Coast, Midwest, Southeast, East Coast and Canadian regions (the “Rover Project”). The Rover Project represents an approximate \$4.2 billion investment of private funds for public infrastructure under the Natural Gas Act.

2. This is a civil action for the taking of property interests under the power of eminent domain and for the determination and award of just compensation to the Landowners and Other Parties-in-Interest as identified on **Exhibit A**. The authority for the taking is 15 U.S.C. § 717f(h), which grants federal jurisdiction. Additionally, jurisdiction exists under 28 U.S.C. § 1331, because this action arises under the laws of the United States, and under 28 U.S.C. § 1337, because this action arises under an Act of Congress regulating interstate commerce.

3. Pursuant to 15 U.S.C. § 717f(h), the compensation demanded or claimed by the owner or owners of each tract to be burdened by the Easements on, over across and, or under each such tract exceeds \$3,000.00, as does the amount offered by Rover for such Easements.

4. Rover has not been able to acquire by contract, and/or is unable to agree as to the amount of compensation to be paid for the Easements by Rover to the owner or owners of the tracts or interests therein that are to be burdened by the Easements.

5. Venue is proper in this judicial district under 28 U.S.C. § 1391(b)(2) because a substantial part of the properties that are the subject of this action are situated within this judicial district, and it is proper to join all of the Easements identified on **Exhibit A** in this action.

Parties

6. Rover is a natural gas company as defined by Section 2(a) of the Natural Gas Act, 15 U.S.C. § 717(a)(6). Rover is a Delaware limited liability company with a principal place of business at 8111 Westchester Drive, Suite 600, Dallas, Texas, 75225. It

is registered to do business in and is engaged in business in the states of West Virginia, Pennsylvania, Ohio, Michigan and within this federal district.

7. Rover is a company organized for the purpose, among other things, of transporting natural gas in interstate commerce through pipes and conduits, and is an interstate natural gas company within the meaning of the Natural Gas Act, 15 U.S.C. §§ 717a(6) and (1), and as such, is qualified to construct, own, operate and maintain pipelines for the transmission of natural gas in interstate commerce.

8. Pursuant to the Certificate, FERC has determined that Rover Project will serve the public convenience and necessity by, among other things, providing the public with a safe and reliable interstate pipeline system for the transportation of domestic supply of natural gas from the Utica and Marcellus shale production areas in Ohio, Pennsylvania, and West Virginia. The Easements sought herein are needed by Rover to survey, construct, lay, maintain, inspect, erect, alter, operate, protect, and repair (among other rights as specified herein) the Rover Project for the transportation of natural gas in interstate commerce and to fulfill the public purposes for which the Certificate was issued. **Exhibit B**, Certificate at ¶¶ 58, 62 and 66 and pp. 2, 102.

9. The persons and, or entities known or whose names could be ascertained by a reasonably diligent search of the records as owning or claiming any interest in the tract or tracts on, over, across and, or under which the Easements are to be situated as identified, depicted or described on **Exhibit A** (the “Parent Tracts”), are collectively referred to herein as “Defendants.”

10. There may be others who have or may claim some interest in the Parent Tracts, whose names could not be ascertained by a reasonably diligent search of the

records. These persons and/or entities are made parties to this action under the designation of “Unknown Owners” pursuant to Federal Rule of Civil Procedure 71.1(c)(3).

11. The amount of the property sought for such Easements, as well as the location of all Easements sought to be condemned in this action are within the scope of the Certificate and are necessary for the operation of the Rover Project. A map depicting the Rover Project’s overall approved route through West Virginia, Ohio, Pennsylvania and Michigan is attached hereto as **Exhibit C**.

12. Rover has voluntarily acquired the majority of the Easements necessary for the Rover Project, and has negotiated with the Landowners in an attempt to purchase amicably the Easements on, over, across and under the Parent Tracts and has negotiated with Other Parties-in-Interest to accommodate pre-existing rights within the Easements and, or existing facilities crossed by the Easements, all as necessary to construct, operate and maintain the Rover Project, but has not been able to reach an agreement in this regard. Furthermore, Rover has made written offers to the affected Landowners for the Easements sought to be acquired before instituting this condemnation proceeding, but such offers have been rejected or such affected Landowners have failed to respond, thereby preventing negotiations.

Therefore, it is necessary for Rover to exercise its right of eminent domain under Section 717f(h) of the Natural Gas Act, 15 U.S.C. §717f(h), to acquire the needed Easements for the Rover Project.

The Rover Project

13. The Rover Project will provide daily take-away capacity of 3.25 billion cubic feet (Bcf/day) of natural gas to satisfy the take-away capacity needs of Marcellus and Utica shale gas producer-shippers.

14. The Rover Project represents an approximate \$4.2 billion investment in energy infrastructure in the United States.

15. Pursuant to the Certificate, Rover must complete the authorized construction of the proposed facilities and make them available for service within by the In-Service Date specified in the Certificate.

16. Rover has entered into binding Precedent Service Agreements with shippers for long-term firm transportation service for over Ninety-Five Percent (95%) of the 3.25 Bcf/day of the Rover Project's design capacity.

17. The proposed construction schedule and In-Service Date for the Rover Project are driven by the public need for providing a means of transporting large volumes of stranded natural gas to market.

18. Rover has entered into binding precedent agreements with multiple shippers for long-term firm transportation service for nearly all of the Rover Project's design capacity. In order to satisfy the requirements of the precedent agreements, Rover must expeditiously commence construction of the line so that the line can be timely placed in service and meet the needs and requirements of its shippers.

19. The Rover Project is a complex project that involves numerous stakeholders, including gas producers and shippers, landowners, consumers, as well as

numerous governmental agencies, including FERC, the U.S. Environmental Protection Agency (EPA), the U.S. Army Corps of Engineers (COE), the U.S. Fish and Wildlife Service (USFWS), the Ohio Environmental Protection Agency (OHEPA), the Ohio Department of Natural Resources (ODNR), the Ohio State Historic Preservation Office (OH SHPO), the West Virginia Department of Environmental Protection (WVDEP), the West Virginia Division of Natural Resources (WVDNR), the West Virginia Division of Culture and History (WV SHPO), the Pennsylvania Department of Environmental Protection (PADEP), the Pennsylvania Department of Conservation and Natural Resources (PADNR), the Pennsylvania Fish and Boat Commission (PAFBC), the Pennsylvania Game Commission (PAGC), the Pennsylvania Historical and Museum Commission (PA SHPO), the Michigan Department of Environmental Quality (MDEQ), the Michigan Department of Natural Resources (MDNR), and the Michigan State Housing Development Authority (MI SHPO).

20. Per the Certificate, the construction of the Rover Project must comply with applicable environmental permits, approvals and regulations. *See* **Exhibit B**, Certificate at ¶ 281(F)(3).

21. As part of the Certificate issuance process, a Final Environmental Impact Statement (“FEIS”) was issued by FERC, which assessed the potential environmental effects of the construction and operation of the Rover Project, and concluded that the Rover Project, when constructed and operated in accordance with applicable laws and regulations, and the mitigating measures discussed in the FEIS and the FERC’s recommendations therein, adverse environmental impacts will be reduced to acceptable levels. FEIS findings are enclosed as **Exhibit D** and are incorporated herein.

22. Per the FEIS and the Certificate, to reduce impacts, if any, on protected species of wildlife, Rover must adhere to the USFWS clearing windows of November 15 to March 31 in West Virginia, and October 1 to March 31 in all other states. **Exhibit B**, Certificate, App. B., Env. Cond. 25; also **Exhibit D**, FEIS 4 -123, 134.

23. Rover must complete all tree felling activities for the Project before March 31, 2017, to be able to meet the contractual in-service date that Rover's producers-shippers are counting on in entering into precedent agreements with Rover for shipment of natural gas through the Rover Project, and with applicable regulations and Rover's obligations as set forth in the Certificate.

24. In order to comply with the environmental no-tree-clearing regulations, while still staying on schedule to complete the Rover Project in time to meet the needs of its shippers and their customers, and comply with its tree-felling contracts Rover must begin tree felling immediately, so that it can complete such tree-felling by no later than March 31, 2017.

25. The construction schedule for the Rover Project is constricted and involves an enormous logistical effort that will require the careful coordination of multiple crews of approximately 15,000 construction workers performing various stages of work sequentially in an assembly-like fashion along the construction corridor of 713 miles at a rate (distance per day) that is affected by topography, road and stream crossing and other factors.

26. To meet all of its shippers' needs and those of its shippers' customers, while at the same time complying with applicable regulations and Rover's obligations as set forth in the Certificate, Rover must begin construction immediately.

27. Timing is of the essence, and maintaining the project schedule is critical, as a delay in construction of the Rover Project would likely prevent Rover from meeting the needs and requirements of its shippers while at the same time complying with its FERC obligations under the Certificate.

Count One: Condemnation of Property Interests to Be Acquired and Property Use

28. The interests to be acquired by Rover are non-exclusive fifty feet (50') (for single line) and sixty feet (60') (for dual lines) wide permanent pipeline rights-of-way and easements (the "Permanent Pipeline Easements") as same are identified, described and depicted on **Exhibit A** hereto, to survey, construct, lay, maintain, inspect, erect, alter, operate, protect, repair, replace with same or lesser size pipe, remove and, or abandon in place one or two pipeline or pipelines in the fifty feet (50') wide or alternatively sixty foot (60') wide permanent easements more fully identified, described and depicted on **Exhibit A** hereto, said pipeline or pipelines being not to exceed 42 inches in nominal diameter (the "Pipeline or "Pipelines"), as set forth on **Exhibit A**, and located within such Permanent Pipeline Easements, together with such below ground valves (unless a surface site easement is sought, in which case, Rover seeks to have the right to place both the valve and related equipment above ground), and below ground fittings, above ground corrosion control devices, and below ground wires, cables, and other equipment and appurtenances, and above ground cathodic protection test leads and pipeline markers, as may be necessary or convenient for construction, operation and maintenance of the Pipeline or Pipelines (collectively, the "Facilities") under, upon, across, and through the Parent Tracts as identified, described and depicted on **Exhibit A**.

29. Rover also seeks to condemn non-exclusive temporary workspaces and additional temporary workspaces identified, described and depicted on **Exhibit A** hereto

(collectively, the “Temporary Workspace Easements”). Each of the foregoing Temporary Workspace Easements shall be used by Rover solely for the initial construction of the Pipeline or Pipelines in the Permanent Pipeline Easements and for the restoration and remediation of the land after initial construction and shall expire upon completion of the initial construction and restoration and remediation or upon the expiration of twenty-four months from the commencement of construction in the county, in which the Temporary Workspace Easement at issue is located, whichever occurs first. Thereafter, all of Rover’s privileges and rights on or to use of the Temporary Workspace Easements shall terminate.

30. Rover also seeks to condemn exclusive permanent surface easements (collectively, the “Surface Site Easements”) to be used solely for the Pipeline or Pipelines for the purpose of constructing, maintaining, operating, removing, changing the size of, relocating, replacing, protecting and repairing both surface and subsurface pipelines, pumps, launching-receiving equipment, flares, communication equipment, generators, dehydrators, separators, valves, risers, electrical equipment (including but not limited to MCC Buildings/transformers/substations) electrical lines, wires, cables, meters, meter houses, meter runs, buildings and any and all other devices, equipment and structures incident or necessary to the regulation, control, measurement, treatment, transportation and distribution of natural gas, as identified, described and depicted on **Exhibit A** hereto, together with the right to enclose said easements by fences and the further right, at the expiration of the use of said easements for one or more of such purposes, to retain possession and control of said property for a reasonable period of time thereafter within which to remove said pipelines and all other properties of whatever character or description placed or constructed by Rover upon said easements. Rover shall have no right to place

any compressors on the Surface Site Easements. Rover, at its option, shall erect and maintain around, but within the easement for the Surface Site Easements, a wooden or chain link fence, trees, or shrubbery and flowers.

31. Rover also seeks to condemn non-exclusive (1) permanent road access easements (“Permanent Road Access Easements”), and (2) during the initial construction of the Pipeline or Pipelines only, temporary road access easements (“Temporary Road Access Easements”), to be used by Rover solely for the purpose of ingress and egress to and from public roads and other easements to which Rover has the right of access to and from the Permanent Pipeline Easements, the Temporary Workspace Easements and the Surface Site Easements. The Temporary Access Easements shall expire upon completion of the initial construction and restoration or the expiration of twenty-four months from the commencement of construction in the county in which the Temporary Road Access Easement as issue is located, whichever occurs first. Rover shall not prevent the owner of the lands burdened with the Permanent Road Access Easements and, or the Temporary Road Access Easements from utilizing the roadways within such Easements. With respect to the Temporary Road Access Easements, Rover will, prior to termination of same, restore the roadways located within such easements to the same or better condition that existed immediately prior to Rover’s use thereof, to the extent reasonably practicable. With respect to the Temporary Road Access Easements (while same are in effect) and the Permanent Road Access Easements, Rover shall have the right to use, repair, improve and, or maintain any existing roads located therein and, or to construct, use, repair, improve, place and, or maintain thereon new roadways and, within the Permanent Road Access Easements, construct, install, maintain and replace poles, wires and cables as are necessary to provide

electricity and, or communication capabilities to the Pipeline or Pipelines and valves and, or other facilities located on the Surface Site Easements, and Rover shall maintain and upkeep to a reasonable state of repair any roads currently situated on or constructed on the Permanent Road Access Easements.

32. In no event is Rover seeking to condemn any rights not authorized by FERC to be condemned by Rover as reflected in the Certificate. In certain instances, plats included as part of **Exhibit A** may describe more lands within easements depicted thereon than Rover is authorized to condemn. In those instances, the typed description in **Exhibit A** for any such tracts depicted on such plats expressly limits the easements sought to be condemned to those authorized by FERC to be condemned by Rover.

33. The right to use the Easements shall belong to Rover and its agents, employees, designees, contractors, guests, invitees, successors and assigns, and all those acting by or on behalf of it for the above stated purposes. Rover seeks the right of ingress and egress over, across and through the Permanent Pipeline Easements, the Temporary Workspace Easements (while they remain in effect), the Surface Site Easements, the Temporary Road Access Easements (while they remain in effect), and the Permanent Road Access Easements, and to access same from other rights-of-way or easements and roads, to which Rover has the right of access, for the above stated purposes and for all other purposes necessary and at all times convenient and necessary to exercise the rights granted by the Certificate as applied and enforced by this Court.

34. No pipeline or permanent facility of any kind or character shall be constructed by Rover on the Temporary Work Space Easements or the Temporary Road Access Easements.

35. Pursuant to the Easements sought herein, Rover shall have the right to construct, maintain and change slopes of cuts and fills to ensure proper lateral and subjacent support and for drainage for the Facilities, and shall have the right to remove trees, brush, crops and other vegetation and obstructions from the Permanent Pipeline Easements and Temporary Workspace Easements (while they remain in effect).

36. Pursuant to the Easements sought herein, Rover shall have the right to install, maintain and use gates in all fences which now cross or may cross the Permanent Pipeline Easements or which provide access to the Parent Tracts where the Easements intersect same; and Rover shall have the right to install its own lock, if Rover so chooses, and Rover and the owners of the Parent Tracts shall have access (i.e., interlocking locks) through such gates. Rover and its designated contractors, employees and invitees shall keep all gates in fences closed at all times, except when passing through same, so that cattle, horses and/or other livestock located on the Parent Tracts cannot stray from fenced pastures. Rover shall have no right to fence or enclose the Permanent Pipeline Easements, but shall have the right to fence all the Surface Site Easements. Rover shall, during the initial construction operations, maintain suitable crossings on, over, and across the Permanent Pipeline Easements

37. If any of the lands within the Easements are subject to valid and subsisting oil and gas leases, coal leases, surface leases, pipeline easements or easements for other purposes, Rover's Easement rights acquired hereunder from and against the owners of such leases and or, easements, are (i) acquired only to extent necessary to carry out the rights granted to Rover under the Easements sought, and (ii) to be exercised by Rover so as to not unreasonably interfere with existing rights of such owners, provided, however, that

Rover shall be entitled in all events to use the Easements to carry out the purposes approved by the FERC in the Certificate. Rover has named such owners to the extent they claim some interest in the lands burdened by the Easements sought by Rover. Defendants who own any interest in a valid and existing lease and, or easement may use lands lying within the Permanent Pipeline Easements and Permanent Road Access Easements for the uses authorized under the applicable lease and, or easement, provided such uses do not destroy or unreasonably interfere with Rover's permitted uses. As to all remaining Defendants, such Defendants (i) may use lands lying within the Permanent Pipeline Easements and Permanent Road Access Easements for all purposes which do not destroy or interfere with Rover's permitted uses of same, including, without limitation, agricultural, open space, setback, density, street, utility and roadway purposes, (ii) after review and approval by Rover which will not be unreasonably withheld, may construct and install any and all streets and roadways, at any angle of not less than forty-five degrees (45°) to Rover's Facilities, across the Permanent Pipeline Easements which do not interfere with, damage, destroy or alter the operation of the Facilities, (iii) may construct and/or install water, sewer, gas, electric, cable TV, telephone or other utility lines across the Permanent Pipeline Easements at any angle of not less than forty-five degrees (45°) to Rover's Facilities, across the Permanent Pipeline Easements which do not interfere with, damage, destroy or alter the operation of the Facilities, and provided that all of Rover's required and applicable spacings, including depth separation limits and other protective requirements are met, and (iv) may construct and/or install water, sewer, gas, electric, cable TV, telephone or other utility lines across the Permanent Road Access Easements so long as such construction,

installation and maintenance of same does not unreasonably interfere with Rover's use of same, or damage or destroy the roads located within such easements.

38. The use of the lands within the Easements shall be regulated by all appropriate and then applicable ordinances, regulations, resolutions or laws of any governmental entity having authority over same. Defendants must notify Rover in writing before the construction or installation of any streets, roadways, utilities or other encroachments on the Permanent Pipeline Easements and, or the Permanent Road Access Easements.

39. Defendants may not use any part of the Permanent Pipeline Easements and, or the Permanent Road Access Easements if such use may damage, destroy, injure, and/or interfere with the Rover's use of same for the permitted uses hereunder. Defendants, except for those Defendants who have rights to do so under valid and subsisting leases and, or easements, are not permitted to conduct any of the following activities on the Permanent Pipeline Easements and, or the Permanent Road Access Easements without the prior written permission from Rover: (i) construct any temporary or permanent building or site improvements, other than streets and roads as provided above; (ii) drill or operate any well; (iii) remove soil or change the grade or slope; (iv) impound surface water; or (v) plant trees or landscaping. Notwithstanding anything herein to the contrary, no above or below ground obstruction that may destroy or materially interfere with Rover's permitted uses shall be placed, erected, installed or permitted within or upon the Permanent Pipeline Easements and, or the Permanent Road Access Easements without the prior written permission of Rover. In the event the terms of this paragraph are violated, Rover shall

have the immediate right to correct or eliminate such violation at the sole expense of Defendants.

40. Rover has the right from time to time on the Permanent Pipeline Easements, Surface Site Easements, and, or the Permanent Road Access Easements to trim, cut down or eliminate trees or shrubbery as may be necessary to prevent possible interference with the operation of the Facilities and to remove possible hazards thereto, and, except as provided in paragraphs 38 and 40, the right to remove or prevent the construction of any and all buildings, structures, reservoirs or other obstructions on the Permanent Pipeline Easements and, or the Permanent Road Access Easements that, in the sole judgment of Rover, may endanger or interfere with the efficiency, safety, or convenient operation of the Facilities. From and after the completion of initial construction, Rover shall pay any damages that may arise to growing crops, timber, fences and other improvements from the construction, maintenance and operation of the Facilities, provided that Rover shall not be responsible for paying damages for its removal of any trees or brush (but not growing crops) or other obstructions from the Permanent Pipeline Easements or for its removal of any trees or brush or other obstructions from the Permanent Road Access Easements as part of its routine operations to maintain thereof free from obstructions. Rover shall maintain the Permanent Pipeline Easements, Surface Site Easements and, or the Permanent Road Access Easements, and the Temporary Workspace Easements (while same remain in effect) and Temporary Road Access Easements (while same remain in effect) clear of all litter and trash accumulations.

41. Rover does not seek to acquire any royalty, working, revenue, overriding, or other oil, gas, or mineral interests. Defendants shall, to the extent owned by Defendants,

retain all the oil, gas, and other minerals in, on and under the Parent Tracts, including within the Easements; provided, however, Defendants shall not be permitted to drill or operate equipment for the production or development of oil, gas, and minerals within or on the Permanent Pipeline Easements, Surface Site Easements and, or the Permanent Road Access Easements, but Defendants shall be permitted to extract the oil, gas and minerals from and under same by directional drilling and other means, so long as such activities do not damage, destroy, injure, and/or interfere with the Rover's use, operation and maintenance of the Facilities or Rover's use of said easements for the purposes for which same are sought by Rover.

42. Upon completion of construction, permanent fencing and tiling destroyed or disturbed by project construction activities shall be repaired and, or re-installed by Rover, at its sole expense, along substantially the same alignment, configuration and approximate location of the Defendants' existing fences and tiling system.

43. Rover agrees that it will fully and timely comply with all Federal laws, regulations, certificates, plans and procedures as approved by a Federal agency or any other Federal rules that apply to construction and operation of the Pipeline or Pipelines.

44. Rover shall have the right to adequately mark the Pipeline or Pipelines with permanent line markers, ground placards and test leads in order to promote public safety and the future safe operation of said pipeline, and to meet applicable governmental regulations.

45. Notwithstanding anything to the contrary herein, Rover (except for facilities on Surface Site Easements, electric poles on Permanent Road Access Easements and pipeline markers and cathodic test leads on Permanent Pipeline Easements, which will be

placed within the Permanent Pipeline Easements at road crossings, property boundaries or existing fence lines intersected by the Pipeline or Pipelines, unless required by applicable regulations to be placed at other locations within the Permanent Pipeline Easements, and pipeline vents which will be placed within the Permanent Pipeline Easements at road crossings, where required), will not construct, build, install, maintain or have any above ground structures, installations, equipment or apparatus of any kind on or within the boundaries of the Permanent Pipeline Easements or Permanent Road Access Easements (except for power poles and lines and communication cables and facilities).

46. Rover hereby agrees to indemnify and hold Defendants harmless from and against any claim or liability or loss from personal injury, property damage resulting from or arising out of the use by Rover, its contractors, servants, agents or invitees, of the Easements, excepting, however, any and all claims, liabilities or damages as may be due to or caused by the acts of a Defendant, or his, her or its servants, agents or invitees.

47. Rover shall comply in all respects, at its sole cost, with all applicable federal, state, and local laws, rules, and regulations which are applicable to Rover's activities hereunder, including, without limitation, the construction, use, operation, maintenance, repair and service of the Facilities.

48. Rover shall have the right to assign its Easements to the extent allowed by applicable law, and the rights granted hereunder while in effect, may be assigned in whole or in part, to one or more assignees. The Permanent Easements sought hereunder shall be in perpetuity, and the easement provisions of this Verified Complaint, including all benefits and burdens, shall be covenants running with the land and shall be binding on Rover and Defendants and their respective successors and assigns.

49. It is in the public interest and necessity, as evidenced by the Certificate, that the Easements as certificated by FERC and described herein and in **Exhibit A** be condemned for the public purposes herein described.

50. The intended uses of the Easements to be taken are within the authority conferred by the Certificate.

51. Pursuant to Fed. R. Civ. P. 65(c), Rover will deposit into the Court's registry the amount required by the Court to secure Defendants compensation that will ultimately be awarded for the Easements sought, and subject to the withdrawal by Defendants on terms specified by this Court.

Count Two: Declaratory Relief

52. Rover incorporates by reference paragraphs 1 through 52.

53. Rover requests the Court to declare, pursuant to 28 U.S.C. § 2201, and the Certificate issued by FERC, pursuant to the Natural Gas Act, that Rover has the substantive right to exercise eminent domain over and condemn the Easements as outlined in this Verified Complaint and in the Certificate.

Count Three: Injunctive Relief

54. Rover incorporates by reference paragraphs 1 through 54.

55. Rover seeks an order granting it immediate entry upon the Easements identified herein.

56. Immediate access and entry is necessary so that Rover can timely place the Rover Project in service to meet the needs of Rover's shippers and their customers, while at the same time complying with the applicable regulations and Rover's obligations set forth in the Certificate.

57. Rover will, upon Court order, post an appropriate bond reflective of the total estimate of just compensation due to Defendants for the acquisition of the Easements. As a result, Defendants will not be harmed in any way.

58. Rover has the right to condemn the Easements pursuant to the Certificate issued pursuant to the Natural Gas Act and, therefore, Rover is substantially likely to prevail on the merits of the taking.

59. The Certificate establishes that the Rover Project and acquisition of the Easements is in the public interest.

60. Accordingly, Rover requests the Court to enter an order granting injunctive relief to permit Rover the right of immediate entry and access upon the Easements to commence and complete construction of the Rover Project.

Civil Rule 71.1(d) Notices

61. Pursuant to Fed. R. Civ. P. 71.1(d)(1), Rover is hereby delivering to the clerk the requisite notices to the Defendants named herein, as identified in **Exhibit A**.

WHEREFORE, Rover respectfully prays that this Honorable Court:

- a. Deem the Notice submitted herewith pursuant to Federal Rule of Civil Procedure 71.1(d) to be good and sufficient;
- b. Order that said Notice be served on the Defendants in a manner set forth by Federal Rule of Civil Procedure 71.1(d)(3);
- c. Recognize and declare Rover's right to appropriate, through eminent domain, the Easements;

- d. Enter an order granting Rover immediate entry onto the Easements identified and described herein prior to the determination of just compensation upon the posting of security required by the Court to begin pre-construction activities and construction of the Facilities while the issue of just compensation for the taking is resolved in this Court;
- e. Appoint a commission for the determination of just compensation on the takings pursuant to Fed. R. Civ. P. 71.1(h)(2);
- f. Enter judgment and order(s) of taking in favor of Rover condemning the Easements identified and described herein; and
- g. Issue all necessary and/or appropriate orders and decrees, and for all other general, equitable and legal relief as the Court deems just and proper.

Respectfully submitted this 7th day of February, 2017.

Respectfully submitted,

/s/ Gregory D. Brunton

Counsel for Rover Pipeline LLC

VERIFICATION

STATE OF TEXAS :
: SS
COUNTY OF HARRIS :

I, Joey Mahmoud, after being duly sworn, depose and state:

1. I am the Executive Vice-President of Engineering and Construction for Energy Transfer Partners and Senior Vice President of Engineering for Rover Pipeline LLC on the Rover Project.
2. I am the person responsible for supervising Rover's efforts to acquire the Easements and other interests needed for the Rover Project and overseeing overall construction of the Rover Project.
3. I am authorized and qualified to make this verification on behalf of Rover based on my personal knowledge of the factual matters set forth in the above Verified Complaint.
4. I have read the foregoing Verified Complaint and am familiar with its contents.
5. The statements of fact contained in the Verified Complaint are within my personal knowledge and are true and accurate.

By: 
Joey Mahmoud

Sworn to and subscribed before me this 3rd day of February, 2017.

Notary Public in and for the State of Texas
